EXPERIENCE

JUL 2025 - NOW

Berlin (Remote), Work Study

Tech Educator – App Akademie (startup)

- Authored and maintained comprehensive curriculum and technical tutorials (Git, Python, AI) utilized by 30+ students.
- Worked on concepts for AI-tool-orchestration to further automate infrastructure and scaling processes.

OCT 2023 - JUL 2025

Berlin (Remote), Work Study

Lead Tutor – App Akademie (startup)

- Managed team of 4 tutors and mentored clients in face-to-face calls.
- Designed internal tooling to optimize workflows, reducing manual overhead for the tutoring team.

OCT 2021 - MAY 2023

New York City & Los Angeles
(Hybrid)

Software Engineer – Glass Inc. (startup)

- Built indexing logic to process blockchain data and developed backends with Go and Google Cloud.
- Worked full-stack on a video platform.
- Led initiatives for technical documentation, developer guidelines, and QA to optimize the internal development.

FEB 2022 - AUG 2022

Munich (Hybrid), Part Time

Software Engineer – OS Institut (mid-size business)

- Acted as a bridge between engineering and non-technical departments to translate business requirements into technical solutions.
- Modeled and implemented a database architecture using PostgreSQL to centralize customer data for targeted marketing.

FEB 2022 - OCT 2022

Chicago (Remote)

Mobile Developer – Live Inc. (startup)

- Managed the full development lifecycle for both iOS and Android platforms.
- Engineered a social map app with geodata integration using Flutter and Dart.

EDUCATION

OCT 2023 - NOW

Heidelberg

B.Sc. Mathematics – University of Heidelberg

OCT 2023 - NOW

Heidelberg

B.Sc. Computer Science – University of Heidelberg

AWARDS

SINCE OCT 2024

Scholarship – Stiftung der Deutschen Wirtschaft
